Education

Highschool education

First English Language School, Sofia

Business Informatics in English

University of National and World Economy, Sofia

Alpha Python Program

Telerik Academy, Sofia

Software Development

Software University, Sofia

Employment

Cashier-salesman

Yavor, Sofia

Working on excel and a few other basic software programs. Daily communication with clients in the sales department.

Freelance web developer and aspiring cloud enthusiast.

Engaged in a range of web-based initiatives and workshops that showcase my commitment to continuous growth. Recently embarked on an ambitious full-stack project, leveraging my proficiency across the development spectrum. My current focus is on diligently advancing this venture, employing my expanding knowledge in containers and cloud technologies with the imminent goal of seamless deployment.

Courses

Python Web

Learnt web development with Django, how networks work, what Http and Https are, how to work with Databases and the concepts of MTV architecture.

JS Front-End

Here I learnt html and css together with some javascript.

React JS

Intensive course where I learnt how to create a SPA application and REST architecture.

Devops for Developers

In this course I learnt the basics of Linux. Studied containerization with docker and docker-compose. Studied cloud platforms such as AWS and Azure. Learnt the main principles of Devops and Devsecops.
